

Ender TANRIVERDI

QA Automation Tester
endertanver@gmail.com
Phone: +44 0747 055 3436
Solihull, UK

Summary:

Highly qualified QA Automation Tester with experience in the industry. Enjoy creative problem solving and getting exposure on multiple projects, and I would excel in the collaborative environment.

In my last position, I worked as a technical support team member at Techpro Education Coding Course.

Additionally, I am member of volunteer team in Code Your Future (CYF) which is UK based non-profit organization.

I am well experienced to automate end to end tests using tools and platforms such as Java, Selenium Suite, SQL, JDBC, Postman, and Rest-Assured Library. I have hands-on knowledge of Cypress testing framework.

Additionally, I have good amount of knowledge on ReactJS library.

I consider myself a positive person, I have good analytical and management skills and the ability to work independently with minimal supervision.

Skills:

- **Testing Tools:** Selenium Suite, Cypress, JiraXray, Junit, Jenkins, Apache POI, Maven
- **Frameworks:** Cucumber, TestNG, Cypress
- **Languages:** Java, JavaScript, SQL, Gherkin
- **Platforms:** SauceLabs, BrowserStack, Selenium Grid, Docker
- **IDE:** IntelliJ, VS Code
- **Front-End:** HTML, CSS, ReactJS
- **Back-End:** Postman, Newman, REST-Assured Library, SQL, JDBC, Cypress, Node, Express
- **Version Control:** Git, GitHub

Qualifications:

- A skilled Automation Tester in fleet management, CRM, and education domains
- Experienced in Java and JavaScript
- Proficient in automated UI testing by using Selenium and Cypress
- Expert in designing, developing, and maintaining BDD framework
- Solid experience in SQL, JDBC, Rest Assured Library as well as Postman for back-end testing
- Ability to use CI/CD and version controls technologies like Jenkins, Git, and GitHub
- Well acquainted with all phases of SDLC and STLC and hands-on experiences on JiraXray
- Hands-on experience in Agile/Scrum Methodologies and actively participated in all ceremonies
- Detail-oriented, team player, self-motivated, eager to learn and share the knowledge

Experiences:

Techpro Education Coding Courses (Technical Support Team- Remote) 06/2021- 04/2022

- Helped the students and instructors to set up environments for:
 - Java and IntelliJ IDE
 - Selenium Suite and Cucumber Framework

- MySql and JDBC
- Git and GitHub, Jenkins, and Maven
- Postman and REST-Assured Library
- Helped the students solve their Java, Selenium, SQL, and API related problems
- Administered and maintained the course's Slack platform
- Administered and maintained the course's YouTube channels and Google Classroom pages

FleetApps- USA (Non-Paid Automation Tester Internship- Remote) 08/2020- 02/2021

- The project was a fleet management web-based application for companies
- Automated UI tests via Selenium on Cucumber framework with Page object Model
- Used Gherkin language for features and Java in steps definition classes
- Maven was used for dependencies, parallel testing, and build management in the framework
- Performed continuous integration tests using Jenkins, Git and GitHub
- Back-end tested via Oracle SQL Developer, JDBC, Postman, and REST-Assured Library
- Used JiraXray for project management and bug tracking
- Participated in all Scrum ceremonies

OpenlyCRM- USA (Non-Paid Automation Tester Internship- Remote) 01/2020- 06/2020

- The application was cloud-based CRM solutions for small and medium-sized companies
